## ShriVallabh Pittie Rs 450-cr textile unit begins ops in Raj

Jhalawar (Rajasthan) Jul 21 (PTI) ShriVallabh Pittie Industries (SVP), a leading textile company with its revolutionising innovations in polyester & cotton blended yarn today inaugurated its Rs 450 crore new textile plant here.

The plant is fully automated with 1,00,000 spindles holding a manufacturing capacity of 22,000 tonnes per annum and is spread across 25 acres of area.

After inaugurating the plant here today, Rajasthan Chief Minister [VasundharaRaje](#) said, "We are committed towards forging partnerships that promote manufacturing and create employment opportunities in Rajasthan."

The setting up of textile unit in record 9 months period by Pittie group is an excellent example of development realised by effective governance. "Our mission of Make in Rajasthan is complimenting the PMs vision of Make in India," Raje said. Chirag Pittie, Managing Director, SV Pittie Group said, "We have commissioned our plant within a record time of just under 9 months. Projects like ours will be helping the Rajasthan government generate sustainable employment." "As part of the package, we also have derived significant advantages like interest subsidy, VAT benefit and electricity duty rebate. Our capacity will increase to 200,000 owned spindles as the new plant will produce high quality compact yarn of count 20 to 60," he added.

The plant will consume almost 25,000 MT of cotton annually, which will provide employment to over 500 people directly and will annually provide a stable source of livelihood to more than 30,000 farmers, Pittie said. The plant will manufacture combed compact yarn, which sells at a premium in the market over other yarns and commands higher margins, he added.

The Rs 450 crore project cost of this plant is funded with a 60:40 debt to equity ratio, Pittie said.

The group company, Platinum Textiles is engaged in manufacturing of polyester & cotton blended yarn. Its manufacturing facilities are located at Ramnad, Coimbatore, and Palani in Tamil Nadu where they manufacture cotton yarn, compact yarn, citra yarn, PC blended yarn, and open end yarn.

These facilities are located in close proximity to each other and near major textile hubs. The total installed capacity of these three units is 100,000 spindles. These manufacturing units make yarns of count ranges 6 to 70.
